

Ken-Wo Golf Club - July 23, 2010

Tournament Format – Five (5) Player Scramble.

All players in your group will hit their tee shot. The team will then determine which ball you want to play for your second shot. Once established, all players will hit from that spot. This procedure is continued until the ball is in the cup. Until you are on the green, you can play your shots no further than one club length from the existing spot and no closer to the hole. Each player on every team must have at least two (2) tee shots put in play through the 18 holes.
